I've got a dream, but I don't know where it's from
There's a monster under my bed
Got a needle stuck inside my vein
Feels like the living dead
BRIDGE 1
You came and messed it up, you came and brought
this cup
You are the bug that grew, and who invited you?
CHORUS
I saw the lollipop man
The jellitot queen in a limousine
I say the wayward son with the loaded gun
But it was just a bad dream
I will not live like this and I will not die like this
I will not live like this and I will not die like this
Not gonna cry, not gonna cry, not gonna cry
Your mouth shouted promises
Your heart whispered lies
My tears like a waterfall
Only now do I realise
REPEAT BRIDGE AND CHORUS
RAP
Psychedelic dream Sunday afternoon
Like an irritating lyric from a loony tune
Does this somehow represent my fate
So immediately I blame it on something that I ate
And then it kicks in and stares at me still
But I see the sunlight dripping from my windowsill
And I know, and I know that it was just a scare
But I will endeavour to never go there
BRIDGE2
I don't want your wings for my brain
I may be crazy but I'm not insane
CHORUS
It was just a bad dream
