Uchuu ni ukabu wakusei "PLANET 01#" de  
kyou wa FUNKTURNIZED DRYER LIGHTS no exhibition  
isoide ikou! My time MASHIIN de...

Toki wo tobikoete, teiie de yorimichi shitetara  
mado no soto ni woo... nijjiro no chikyuu!?

Why don't we go!, colorful world!, beautiful world!  
nee, TORIPPU shiyou yo!  
Pluto people mo C'mon let's go!  
buttonderu kurai ga, choudo ii yo!  
Why don't we go!, colorful world!, beautiful world!?

Yeah, peace na kokoro de...  
gotta Live it like never before!

Global Astro vehicle on the way to Pluto  
see me in the cockpit, my afro is rainbow  
spandex swim cap for whiplash protection  
when we swing past, billboards written in dingbat  
meteorite bike fiends, on Harrys going at light speed  
forget sight-seeing, interplanetary pirates get feisty  
when I insert the disc, I mean serious business  
elicit ecstatic responses from mister and misses  
it's like I've been living for ages.  
devastatin stages after stages  
occupy floor spaces, with beings from all races  
even nutcases, I'm old school...  
blast the stereo with Stetsasonic  
watching Jetsons with my Panasonic  
prototype TV, monochrome, baby  
manifesting the incandescent, into the triple darkness  
boob tube filaments, shooting into the 7th galaxy

why don't we go!, colorful world!, beautiful world!  
nee, souzou no basho e!  
Pluto people mo C'mon let's go!  
hajiketeru kurai ga choudo ii yo!  
Why don't we go!, colorful world!, beautiful world!  
Yeah, ai wo shinjite!  
jinsei wo tanoshiku ikiyou! kono shunkan wo

gotta live it like never before!

Hit PURIZUMU (dot) Com, tobidasu NEO butterflies  
you can synchronize and crystallize, retro vision  
Scroll shitsutsu seek information

This dub is freaky freaky, making party people steamy  
re-boot the system, start the extraspection  
celestial retro-resurrection, infectious optical illusion  
patterned and dated selection, it's classic  
not suitable for the ignorant masses, I pass them  
with this ride, it's fly octane, deranged from and figure  
aeronautic features to beat ya,  
rag-top with bleachers so everybody can hop in  
planet to planet baby, poly-urethane burning asteroids  
probing earth like Yuri Gagarin,  
sonic shots bring mannequins  
back to life like Lazarus  
forget diamonds, I bring you a 100 karat meteorite  
extraordinaire, got a asterisk next to my name  
on your black list  
I'm feelin right, sippin coffee through a nozzle,  
custom-made by NASA  
put mustard on my Kielbasa,  
watching Farrah Fawcett on my electronic  
three hundred sixty planetarium screen

Ikutsu mono tobira wo hiraite ikeba soko ni  
itsuka wasureteita sekai ga aru

Why don't we go!, colorful world!, beautiful world!  
nee, TORIPPU shiyou yo!  
Pluto people mo C'mon let's go!  
buttonderu kurai ga, choudo ii yo!  
Why don't we go!, colorful world!, beautiful world!?

Yeah, yeah, yeah...  
jinsei wo tanoshiku ikiyou! kono shunkan wo  
gotta live it like never before!
