Neo-fascist fashion queens prepare for techno war
Dance around in rubber pants, goose step on the
dance floor
DJs spin a lethal mix, hypnotizing neon lights
Wearing proud the Iron Cross

Dance around like Devo *[repeat]*

*When they come to shine
Tighten your pants in fear
...Ramm - de men of Stein*

*You must know your enemy
Destroy all the non-believers
Drive them down onto their knees
Ein - two - tres - GO!*

Dance around like devo.....

*Techno rules the world - techno rules the new reich [3x]
Techno rules the world tonight*

Dance around like devo.....
