"Override Negative"

Walk the night.
Thoughts begin to bite at my head...
Tension spreads.
Power, performance.
Strive for self assurance.
Override negative.
Under the influence of questioning implements.
Concrete measures increasing my confidence.
Under the influence of questioning implements.
Concrete measures increasing my confidence.
Feel the psych.
The power I generate.
Down deep inside my soul exaggerates.
Power performance.
Strive for self assurance.
Override negative.
Under the influence of questioning implements.

Concrete measures increasing my confidence.
Under the influence of questioning implements.
Concrete measures increasing my confidence.
Hard expressions making the connection.
Positive insight.
Show no affection.
Speak when correct.
Target your direction.
Lock in...
Lock in.
Unload the lethal weapon.
Under the influence of questioning implements.
Concrete measures increasing my confidence.
Under the influence of questioning implements.
Concrete measures increasing my confidence.
