(Verse 1-Miller)

You've been suspicious and paranoid  
You've noticed my leg has been shaking  
When you wake up in bed and notice I'm gone  
You know that something is breaking  
You shout "How could you do this to me"  
And I have nothing to defend me  
You hit me, you hit me  
You hit me, you hit me

(Chorus)

I've lied and I've cheated  
Your anger had made you heated  
I'm sick and cold-hearted  
I've ruined it, now we've parted  
You cry and you cry  
I try to make your face dry  
But whatever I say makes it worse

(Verse 2-Miller)

I can't prove that I didn't do it  
The evidence is right on the table  
The only thing left for me to do is leave  
Forgive me, babe, if you're able  
You shout "I hope you know what you've done,  
I hope you had all your fun"  
You hate me, you hate me,  
You hate me, you hate me

Chorus

I'm sorry  
I'm sorry  
I've broken another heart  
I'm sorry  
I'm sorry  
And now we have to part  
(repeat 2x)
