Do you know what you want  
Do you know what you want

Someone who treats you right  
Stay with you day and night  
I can tell that's what you need  
I know just what to do  
I'll take good care of you  
Baby, you can get that from me

I can tell she's not treating you right  
Every time you look at me  
(Do you know what you want)  
So which one will you choose  
You look so confused

Tell me the truth  
Do you know what you want  
(Do you know what you want)  
Do you know what you want  
(Do you know what you want)  
What you want

Love's so hard to find  
So make up your mind  
Do you know what you want

Oh baby, can't you see  
One minute you're with me  
The next one you are all over her  
She talks behind your back  
You know I'll stay on track  
Something she wouldn't for sure

How can I help you to make up your mind  
Boy, you're running out of time  
(Do you know what you want)  
So which one will you choose  
You look so confused

Tell me the truth  
Do you know what you want

(Do you know what you want)  
Yes, I know what I want  
(Do you know what you want)

(Give me love)  
Love's so hard to find  
So make up your mind  
(Make up your mind)  
Do you know what you want

Please call me and say I am the one  
You need in your life, oh baby  
The game that you play ain't no fun  
Please answer me now  
Gotta know what you want

Do you know what you want  
Do you know what you want

I can tell she's not treating you right  
Every time you look at me  
(Do you know what you want)  
So which one will you choose  
Oh, you look so confused

Tell me, tell me the truth  
How can I help you to make up your mind  
Boy, you're running out of time  
(Do you know what you want)  
So which one will you choose  
You look so confused

Tell me the truth  
Do you know what you want  
(Yes I know, what I want)  
Do you know what you want  
(Tell me what do you want)

Do you know what you want  
(Tell me, love's so hard to find)  
Love's so hard to find  
So make up your mind  
(Make up your mind)  
Do you know what you want
