I heard about this frog  
it's a very tiny frog  
but it's also very special  
you can only find it in the jungle  
so far away from me  
but if you find it and if you touch it  
your world can change forever  
If you touch its skin  
you can feel your body changing  
and your vision also  
and blue becomes red and red becomes blue  
and your mommy suddenly becomes your daddy  
and everything looks like a giant cupcake  
And you keep laughing and laughing and laughing  
nothing is ever quite the same really  
and after you finish laughing  
it's time to turn into a frog yourself  
it's very funny to be a frog  
you can dive into the water  
and cross the rivers and the oceans  
and you can jump all the time and everywhere

do you want to play with me?

We can be a whole group of friends

a whole group of frogs

jumping into the streets

jumping into the planet

climbing up the buildings

swimming in the lakes and in the bathtubs

we would be hundreds, thousands, millions

the biggest group of friends the world has ever seen

jumping and laughing forever

it would be great, right?
