"Good Night Albert"

Tick tack . . .

Scientist's secret theories
Einstein, Bohr, Rentgen, Curie
Atomic, Quantum, Poles
Quiet - louder - rays
Hissing Neons, blinking windows
I want to sleep . . .

Tick tack . . .

Sodium lights, diodic aura
Radio-active packed - phase
I want to sleep . . .

Triangles, cubes, silver-spheres
Everything spinning, electrified
Good night, Albert!
Good night, Willy!
And if you want
Sleep with Mary

Good night
