Tried to give you everything
But I got nothing in return
I can imagine better business baby
Never heard of give 'n' take
Never been of your concern
And I realise the difference baby
You treat me like you got no soul
I believe your life is still without no goal
So baby I'll walk away
I'll walk away from you
I feel our love's pass
And the feelings are all through
So baby I'll walk away
I'll walk away from you
You know it's true
There's nothing else to do
Every feeling that I had
Has vanished in the haze
I believe they will remain unfound and
Memories I leave behind
Forgetting all them days
And I think you still don't understand it
I really feel like wasting time
Cause I don't share your way of quality of life
So baby I'll walk away
I'll walk away from you
I feel our love's pass
And the feelings are all through
So baby I'll walk away
I'll walk away from you
You know it's true
There's nothing else to do
Tried to give you everything
But I got nothing in return
Never heard of give 'n' take
Never been of your concern
That's why I walk away
