[Chorus x2]

We've been in the rain.  
We've been on the mountain.  
We've been 'round the fire.  
And fancy hotels.  
Drink water from farm wells.

[Intro]

Yeah  
See I'm going through a lot  
to get where I'm at right now.  
You know.  
Lot of ups and downs.  
Now I'm here.  
It's only up.  
Uh

[Verse 1]

Uh, I'm stepping in this game  
and paying dues.  
Building a reputation  
now we making major moves.

And now it's moving  
how it's moving  
anyway I choose.  
And I've been working  
way too hard  
to just not make it through.

You talk about me.  
Prepare for what I say to you.  
'Cause I'm a man  
and I will stand  
by what I say and do.

There's a lot of ups and downs  
within this game of life.  
For every hater there's a girl  
who wants to stay the night.  
(stay the night)

And now I got myself a taste  
of the fame, I'm addicted.  
I got nothing else to chase.

I kill it on the stage.  
But still I miss the days.  
Just chillin' in the crowd  
like a normal kid my age.

But still I got this paper.  
And still I got my pencil.  
And the craziest part is  
I haven't hit my full potential.

The life I live is stressful.  
Everyday suspenseful.  
Grinding every minute  
of my life to be successful.

[Chorus]

We've been in the rain. (uh, yeah)  
We've been on the mountain. (every fucking day man)  
We've been 'round the fire. (no days off, nada)  
And fancy hotels. (and now I've been through a lot)  
Drink water from farm wells. (more than you know)

[Verse 2]

Uh, I'm trying to make it  
with my sanity.  
Movin' from the underground  
roots up to the canopy.

Do it how I do it  
I just hope  
they understanding me.  
Tryna make it right  
with every member  
of my family.

I know I was the mess up.  
But now Chris stepped up.  
And took hold of what  
I always wanted from  
the setup.

Now when people mention me  
they sayin' I'm the next up.  
It's been a long time  
since that A.D.D check up.

The underclassmens

graduated top of the class.  
Now when I walk around town  
people nod when they pass.

I'm just a kid  
who messed his life up.  
And put it back together.  
A kid who hit the bottom  
and came back stronger than ever.

I've been jerked around,  
stolen from,  
told I would fail.  
But now the numbers  
going up  
on every check in the mail.

And if they not feeling it  
I spit it in braille.  
Hatin' on me gets you no where  
keep on chasing your tail. Bitch.

[Chorus]

We've been in the rain. (yeah keep on talking about me)  
We've been on the mountain.  
We've been 'round the fire. (any promo's good promo  
right? hehe)  
And fancy hotels. (yeah)  
Drink water from farm wells.

[Verse 3]

You think the life I live  
is wonderful.  
Let me give you the flip side.  
Try to go with the flow  
and get caught up in the rip tide.

Everyday it's studio  
or driving to a show.  
And no I'm not complaining  
I'm just lettin' people know.

There's a lot of hard work  
that goes right into the grind.  
Especially without being signed  
and working overtime. (time)

Now every time I meet a girl  
there is a difference.  
'Cause all they want is Webby  
without even meeting Christian.

They just wanna fuck,  
maybe roll an L.  
And go back in the morning  
with a story to tell.

I know it sounds great  
but the side of it you don't see.  
Is at the end of the day  
ya still lonely.

The fans show me love.  
And I love my ninjas back.  
They hold me down  
and I'm forever thankful of that.

And no I won't let you down  
you got my word on that.  
'Cause I'm here for good  
the Best in the Burbs is back.

[Chorus]

We've been in the rain. (and I ain't goin' no where)  
We've been on the mountain. (best in the burbs for a  
reason, ya know?)  
We've been 'round the fire.  
And fancy hotels. (yeah it's Chris Webby by the way)  
Drink water from farm wells. (ya'll already know that)

Ugh yeah.

[Chorus]

We've been in the rain.  
We've been on the mountain.  
We've been 'round the fire.  
And fancy hotels.  
Drink water from farm wells.
