[Verse 1]

Droppin science in your ear like my name was Einstein  
I been breaking down these barriers in this concubine  
I'm trapped in the ice and there's no escape  
I bet you'll regret everyday, that you got up in my face  
With eye contacted and the domes will crack  
Anywhere, anytime, on any world map  
You jibber jabber, bullshit, flapper, wanna be rapper  
Fake mini-me like who? Marshall Mathers

[Chorus]

Walking the fine line, stomping in prime time  
Stripping down your neck, now you're living the die  
time  
Don't hold back, I don't take jack  
My shit is tabu, like my sister's ass crack

[Verse 2]

Call the FBI to secure this operation  
Ice is penetrating all across this damn nation  
A diabolical philosophy, I'm breathing  
Microphone phenon, you eating my semen  
You got phobia, get off my sister's lobia  
trailer park trash, get off my ball sac  
coming through with the wickedness  
Yo, I'm true to kicking this  
Try to stop me, Hah don't be ridiculous

Exhale!

[Chorus repeat]
