[Verse 1]

Hot sex for your pleasure set it off
Liquid treasures floatin in the loft
I'm in the mood
I'm in the mood to lick you
Let my tongue explore all up in you
Around your belly button all around your neck
Down to your legs baby what's next
I'm coming in on deck check your reflex
Me and you baby, doin the sex
All night, make it so hot, so nice
I like just the way you make me feel allright tonite
Time for the candle wax and Ice, on the fly carpet ride
of life
It's magic! On the dreamscape love bliss orgasmic!
Exctasy you don't wanna miss gotta have it!
Animal sex with a twist like a rabbit!
Hot sex every chance we get!
what

Chorus:

Hot Sex all night, all night
Hot Sex all night, all night
Hot Sex all night, all night
All night, all night, alright

[Chorus] - repeat

[Verse 2]

Hot sex all the time
You can find
Hot sex on my mind in my rhyme
Wet dreams escape from reality
Aphrodisiac keeps on calling me
Testosterone I can't hold back
Hard to the bone when I'm under attack
Like a butterfly silk skin, I drive it in
On a quest for the pearl give ya back bends
Like a shockwave movin through your spine
Orgasmic surges leave ya blind
On and on shakin like a shockwave

blastin volcanic lava in my face
It's magic! On the dreamscape love bliss orgasmic!
Exctasy you don't wanna miss gotta have it!
Animal sex with a twist like a rabbit!
Hot sex every chance we get!
what

[Chorus] - repeat

[Chorus] - repeat

[Verse 3]

Hold your head back, baby close your eyes
Get ready for a trip that leaves you hypnotized
With champagne crank the hot tub
Strip your clothes, hot oil rub
Burn the incense underneath the sky
Sex escapade my mind's on high
And with my bag of nuts and sack full of tricks
Down for whatever all up in the mix
And with my hands on your backside let it slide
Break through straight to the other side
And then we ride like Bronco Billy
Saddle up baby it's time to get Silly
It's magic! On the dreamscape love bliss orgasmic!
Exctasy you don't wanna miss gotta have it!
Animal sex with a twist like a rabbit!
Hot sex every chance we get!
What

[Chorus] - repeat

[Chorus] - repeat
