She's a woman, she's a baby
She's a witch, she's a lady
She's a free and gentle spirit
She can be what she wants to be
If she wants to be with me tonight
That's alright

She's one hell of a woman
Young and strong and tame
But soft when she loves me
Like a gentle kitten in my hand
She makes me feel like a hell of a man

She's wild, warm and tender
She'll resist, then she'll surrender
She's a free and gentle spirit
She can be what she wants to be
And if she wants to be with me tonight
Well, that's alright

She's one hell of a woman
Young and strong and tame
But soft when she loves me
Like a gentle kitten in my hand
She makes me feel like a hell of a man

She's one hell of a woman
Young and strong and tame
But Lord when she loves me
She makes me feel like a hell of the man

She's one hell of a woman
Young and strong and tame
But Lord when she loves me
She makes me feel like a hell of the man
