Girl I don't wanna share you  
(Echo)  
We could be together  
But you scared to  
I ain't gonna leave you  
(Echo)  
My peoples tell me that should, but I need you  
And when I blow I hope you know  
I could have any girl I choose  
But I know as time goes by  
Baby all I'm gonna want is you

Girl I don't wanna share you  
(Share You)  
We could be together, but you scared to  
I ain't gonna leave you  
(Leave You)  
My peoples tell me that should  
But I need you  
And when I blow I hope you know  
I could have any girl I choose  
But I know as time goes by  
Baby all I'm gonna want is you

Look  
They told me never fall in love  
It never works out in your favor  
You way too young  
And right now that's just human nature  
You think you love her  
But you don't  
Think you gon be with her for the rest of your life  
You prolly won't  
But on my side  
Shorty just attacked me from the blindside  
Used to be a player now I'm sidelined  
Connect like wi-fi  
Mixed like tye-dye  
She feelin cute wanna wear a lil lingerie  
Voila  
It ain't a sexual thing tho  
We be stayin up

Smokin weed out her window  
In love with me now  
She never huntin me down  
I'm tryna have it all  
She ain't never comin around  
It's like a never ending chase  
Longer than a marathon  
See the smile on her face  
And I can't help but carry on  
I know you love me don't lie  
But you just gotta be mine cause...  
Girl I don't wanna share you  
(Share You)  
We could be together, but you scared to  
I ain't gonna leave you  
(Leave You)  
My peoples tell me that should  
But I need you  
And when I blow I hope you know  
I could have any girl I choose  
But I know as time goes by  
Baby all I'm gonna want is you

I know this girl who want the world to call her own  
Goin through these dudes like some minutes on a  
phone  
And once she leave  
She ain't comin back home  
Hit the road forgettin about everybody she know  
Miss  
Hasn't called me in four days  
But then we hit the bed and she obsessed with foreplay  
Hey  
She tryna be a lil player  
Think she cute too  
But I'ma yank her out the game like a loose tooth  
When the boy blow  
I know she worried  
About all these girls approach me actin flirty  
See that's the thang thing  
I don't give a fuck  
I want your heart so baby give it up  
In this life girl  
All we can do is try  
Forget that dumb stuff  
It's just you and I  
We can travel round the world  
Movin through the sky  
Or we can stay right here  
And you'll be mine

Girl I don't wanna share you  
(Share You)  
We could be together, but you scared to  
I ain't gonna leave you  
(Leave You)  
My peoples tell me that should  
But I need you  
And when I blow I hope you know  
I could have any girl I choose  
But I know as time goes by  
Baby all I'm gonna want is you
