Do you feel it?
Don't answer, that was a rhetorical question
Rhetorical

Forever life been never nice, we expedite the process

And every night I get advice 'cause life is way too
complex
Heaven's lights are hella bright, ironic how that came
to be
But can't you see? This angel speaks
She's saying the place is safe for me
I told "wait or me," the make believer normally disguise
Transform before your eyes and glorifies euphoric
highs
The morning rises and I'm fast asleep
Somewhere off in the master suite
Having dreams of Latin queens and nasty freaks
My mind, it wonders to places yonder and even farther
When I'm sleep walking I'm Stephen Jobs or I'm Peter
Parker
A genius author, a Jesus preaching just to feed his
daughter
The weed to spark up, yeah, he's a goner, fuck these
premadonnas
I'll always wonder what happened 3000 years ago
I like to toy with the idea that we really know
Is what I do important in the grand scheme of things?
In my head these dreams are dreamt, trust me, we are
kings

I'm wearing a blindfold, like where did the time go?
I know you hear me out there, give me a sign, though
I'mma follow you wherever your mind goes
Baby, I'mma follow you wherever your mind goes
Can you wait girl? So I won't be
Hold you closely, so we don't speak
Will you follow me wherever my mind goes?
So will you follow me wherever my mind goes?

I'm trying to make it all make sense

As you hypothesize on how to monetize and take
advantage of
All the time we fall behind, get lost in this aquarium
America, the standard of vanity when the camera's up
We become celebrities, distract from the hysteria
Confessions that I have, the curiosity about life and
death
Most of us will never understand it, we just like the
quest
Read about the meanings of dreaming and all its
messages
Sedatives that take me to God, witness his fetishes
We all in search for substance, that drives from pain
and numbness
Circumstances advance the second chances for this
beloved
Wish I could tell you that I didn't see this coming
But I'm ready for it all to end, die before tomorrow's
trend
Your life, it all depends on dollars spent and
knowledge gained
Darkness on the brain, lost inside, forgotten days
Life, it works in such mysterious ways
All these years that I pray, hope you hear what I say

I'm wearing a blindfold, like where did the time go?
I know you hear me out there, give me a sign, though
I'mma follow you wherever your mind goes
Baby, I'mma follow you wherever your mind goes
Can you wait girl? So I won't be
Hold you closely, so we don't speak
Will you follow me wherever my mind goes?
So will you follow me wherever my mind goes?

Wherever my mind goes
I'mma follow you wherever your mind goes
Wherever your mind goes
Will you follow me wherever my mind goes?
I'mma follow you wherever your mind goes
I'mma follow you wherever your mind goes
Will you follow me wherever my mind goes?
Will you follow me wherever my mind goes?
I'mma follow you wherever your mind goes
I'mma follow you wherever your mind goes
Will you follow me wherever my mind goes?
Will you follow me wherever my mind goes?
