A wolve's world f--- the law b---ch I'm on now  
Ride around puffing loud with the top down  
Start a goddamn riot in the compound  
Turn the whole world into a dog pound  
I ain't no motherf---ing industry rapper  
Just a soul that the industry after  
They said I wouldn't make a lot of money no more  
F--- all my money now I'm coming for war

[Waka Flocka Flame]

Some niggas f--- with me  
Cause these fakes won't f--- with me for the check  
Blow your tee before royalty my nigga till the death  
Came down with em came up with em  
F--- niggas don't f--- with em  
If you in or you out ain't no on and off this bus nigga  
Perfect beats, Bugatti I just bought a ten million dollar  
house  
Did it independent now my label wanna help me out  
Cause I got it worldwide boy I made it out the south  
Guys shy built 250 they ain't want to help me out  
Bank account got local b---ches they ain't help me out  
Grinding out dropped a mixtape after tape  
Me and southside going hard f--- what they say  
F--- this industry I bet these DJs they gon' play  
squat

[Mac Miller]

My rapping cadence is fascinating  
This game that I'm calibrating

Have buildings evacuated whenever my name is said  
I hate the Federlines spending time getting high  
Watched over by heaven's eyes protect me from this  
genocide  
Kill the king many tried success is yet to come  
When you come across a killer under stress it's best  
to run  
My mind dots with no limits shit a gun is just a gun  
When I'm spitting bone chilling this ain't shit I'm  
having fun  
You ain't gonna rap like me put a city on the map like  
me  
Sell a beat bring it back like me kill tracks when I'm  
half asleep  
You ain't gonna chase your dreams you ain't never  
gon' live your life  
F'ck a movie gonna make a scene sit back let me hit  
the light  
Simple knowledge but it's true don't f'ck with me  
don't f'ck with you  
What you doing running through that's from a view of  
love and truth  
This a business no one gives a shit about you  
They gon' f'ck you up and go and get this bread  
without you

[Hook]

A wolve's world f'ck the law b'atch I'm on now  
Ride around puffing loud with the top down  
Start a goddamn riot in the compound  
Turn the whole world into a dog pound  
I ain't no motherf'cking industry rapper  
Just a soul that the industry after  
They said I wouldn't make a lot of money no more  
Fuck all my money now I'm coming for war
