Yeah, yeah,
And it goes like:
Hey, hey, hey,
And I tell them fuck you if you hate me,
Fuck you, we make our money bitch!
That's really what I've gotta say,
I'mma just start rapping and shut the fuck off!

I said they're acting like they better,
But they never been this shit,
How does it feel to have a hundred thousand people on
your dick?
Well, it feels good; homie, you should probably try it,
If you never rocked this... show, you keep quite!
... gets busy on the track working double time,
Trying to find a foreign pussy just to put my tongue
And sat... on the top of the...
... all these haters sucking...
I'm furious, you probably wanna come and stalk me
out,
Man they've got a girl, and I'm on that bitch...
But getting money since I walked around my father's
house
... when they come and take their daughters out.
Papers coming in large amounts to me like it should,
Surf and... my teeth and suck the good.
They... I came to party...
... smell bad, bitch

Chorus:

Come on down, baby girl, make me spin around,
Ain't no other mother fucker getting the people this
round,

So what you want, some futuristic funk?
Tell me what you want, a little futuristic funk?
We're those kids, getting...
Just fuck her for tonight, then we leave that bitch.
So what you want, some futuristic funk?
Tell me what you want, a little futuristic funk?

So you probably heard our rap tone, having fun,
Never ever had a gun, vomit when I spit,

Like I devoured something bad for lunch.
Instead of thinking about the way to get me rich,
I had a hunch like... like scooby doo, confusing like a
rubric cube
I usually don't do this, I'd be stupid just...
All you seem the hear about...
Get a... leave with a few tricks, breath in a huge...
We're coming... you like it then I burn it like a furnace
when the herb hits.
You like it cause I...
Bitch I'm falling from the sky like bird shit,
Make a movie everywhere I go, call me earnest!

Chorus:

Come on down, baby girl, make me spin around,
Ain't no other mother fucker getting the people this
round,
So what you want, some futuristic funk?
Tell me what you want, a little futuristic funk?
We're those kids, getting...
Just fuck her for tonight, then we leave that bitch.
So what you want, some futuristic funk?
Tell me what you want, a little futuristic funk?
