[Verse 1]

Come and talk shit, who the boss b*tch?
Moon the crowd now, Randy Moss shit
Sharks swimmin' in the water you'll get tossed in
And f*ck a first class, I'm in the cockpit
It's obnoxious, it's bumpin' out my car
Bass'll shake your dinin' room table from afar
Down the street they can hear us pretty clearly
Makin' in a night what your daddy pull in yearly
See a little style, I got mine's patent
Always rock smile, never a distraction
Brand new Mercedes, cameras when I back in
F*ck with single ladies, yea I did a little actin'
Love me on the weekend but hate me when I'm workin'
Overly dedicated and overly medicated, for certain
By her a brand new purse and it's gravy
I ain't talkin' Slim when I say these b*tches Shady

[Hook]

Chicken sandwiches and turquoise beads
Tattoo sleeve, pair of Levi's jeans
Never get no sleep, you know all about me
Come and meet my team, b*tch meet my team, meet
my team
You know all about me, come and meet my team
B*tch, meet my team, you know all about me
Come and meet my team

[Verse 2]

And if you see me, I'll be with my team
Got my homie Billy probably in Supreme
Jimmy or Will be selling shirts to the fans
While TreeJay, Clock, got you raisin' your hands
Then you got Q that's my right-hand man
Shout out Little Dave sittin' shotty in the van
Everyone I came with travel like a gang b*tch
City after city, everybody speak our language
We just flex, get bootleg checks
Got all these people askin' what's next
Success and a dumb fresh life
Taking bets, you trying to lose a little money tonight
I'm on top of the stage but under the lights
We, invadin' your crib and f*ckin' your wife

So have a ball, no sports, no Spalding
Poppin' champagne, gon' spray it on her awnin'
[Hook]
Chicken sandwiches and turquoise beads
Tattoo sleeve, pair of Levi's jeans
Never get no sleep, you know all about me
Come and meet my team, b*tch meet my team, meet
my team
You know all about me, come and meet my team
B*tch, meet my team, you know all about me
Come and meet my team
[Outro]
Meet my team, I ain't tryna meet yours
What happened to that shit you was talkin before?
Meet my team, I ain't tryna meet yours
What happened to that shit you was talkin before?
Meet my team, I ain't tryna meet yours
