My pants gon sag forever
My top gon drop whenever
My gun gon shoot whatever
You don't gon love me bruh
Get your James rag
That pussy came fast
All of this bar mine
Look like I fell out a plane
Walkin' on water, impressin' your daughter
Nothing to be, it's about it for me
You got a cannon, police is weak
Lookin' like you ain't got that from the all
Shoot when did you floss and (lose that shit)?
Not a scent, late for rent (road kill)
So white for the ass clap contest
All the home girls tryna shut me up
And give me head and turn me to a conscience rapper
I could tell you how the world begun 'em
For Jamal did shot his sister's son
At birth I was meant to come
Take over the world and full of cable girls and
Dunk in this kitty's pearls
It was a boy like Earl's
And shit is easy, ass 1 2 to the 3
Can't make out what could it be
Look up up up to the beat

It's a plane (hu), it's a car (hu), it's a boat (hu)
A planecarboat (planecarboat hu hu)
A planecarboat (planecarboat hu hu)
It's a plane (hu), it's a car (hu), it's a boat (hu)
A planecarboat (planecarboat hu) planecarboat
(planecarboat)
A planecarboat (planecarboat)

You can taste the way I'm ridin' in the foreign with the
titties out
Shoot a million now, you just chillin' at your bitch's
house
You all prescription trippin' itchin' for a different victim
out
I'm givin' out some ditchin' off resuscitation
The meanest drollest, my style seem as I'm dope as
fuck
Release my thesis, a piece on demons who spoke of
love
Openly cope with emotion, only the strong survive
Along with my personified dog and my bionic eyes
Life a cartoon, turn it up
You probly heard of us, we murderers
The neutrality slipped what the verdict was
Release me please to believe the evil is coming for ya
It's me and a hundred warriors armed with swords and
with sorcerers
Singin' glory to the morning that your abortion come
(woa woa)
And so it goes, gets on the level suppose
We fuckin' these hoes, bitch I'mma jump on your bones
Reachin' and pull out your soul like Jesus

It's a plane (hu), it's a car (hu), it's a boat (hu)
A planecarboat (planecarboat hu hu)
A planecarboat (planecarboat hu hu)
It's a plane (hu), it's a car (hu), it's a boat (hu)
A planecarboat (planecarboat hu) planecarboat
(planecarboat)
A planecarboat (planecarboat)

It's a it's a it's a it's a plane (hu), it's a car (hu), it's a
boat (hu)
A planecarboat (planecarboat hu)
A planecarboat (planecarboat hu)
It's a plane (hu), it's a car (hu), it's a boat (hu)
A planecarboat (planecarboat hu) planecarboat
(planecarboat)
A planecarboat (planecarboat)
