I'm just high why they hatin on my
people tend to think all the dranks on me
i dont even have the money to spend
to buy patron for you and all your friends
baby i be on my grind
rain sleet snow
rollin up good every place we go
cuz we tryin to get high get high get high
Know the bullshit and all the problems
but we to gone to see
little bit of this and a little bit of that
we proceed to give them what they need

Just wakin up and gettin stoned
rub my eyes and check my phone
open up the fridge to make some waffles
but no more syrup up in my bottle
damn, but its okay
i top it off with scrambled eggs
aye gotta work with watcha got
aye gotta work with watcha got

(Chorus)

Suppose to be in class but i aint go
and lets chill on the couch
see whats on the telly
where we wont leave house
can ya stay a while
can ya stay a while
cuz girl im feelin lazy and im tryna hang around

aint tryna get out of my bed till noon
neighbors smell the perfume smoke in my room
and i got the door closed cant be sure though

amsterdam weed spending euro's
get the herb rolled
lets relax
take your shoes off and kick it back
we escaped the world
escaped the stress
but i dont give a fuck if the house a mess

cuz we gonna handle that later
we gonna handle that later
right now lets get that paper and smile for all them
haters

aye cream cheese and a bagel
have a glass of milk and an ego
im rockin pjs and no shirt
i smoke weed eat yogurt

haha
enjoy the best things in your life
cuz you aint gonna get to live it twice
they say you waste time asleep
but im just tryna dream

(Chorus)
Suppose to be in class but i aint go
and lets chill on the couch
see whats on the telly
where we wont leave house
can ya stay a while
can ya stay a while
cuz girl im feelin lazy and im tryna hang around
