Someone like you

Someone like you

Uh. Uh. Yeah lying up to the pain door  
All I hear is the same song, when the radio came on

F\*ck around and get waste dawg  
Do this shit till the day I die  
Are you ready, are you ready?  
Terrified but my hand is steady  
Rarefied, get the camera ready  
Carry my own weight, all these earthquakes don't wait  
Need up from these beat sleeves  
Diving into this cold lake  
F\*ck this and her tall shakes, tellin' me I'm her soul-mate  
Misguide emotion, no face, bull shit with that, no thanks  
Dealing with it since '08, f\*cked around, oh I'm done  
and I heard you're supposed to brace, when you hear the sound of that gun  
Now it's losing all of its fun, spending days in solitude  
Too many dumb interviews put me in this awful mood  
Nothing can match the cool, gettin' high, jump off the moon  
Looked into his soul, when he died right there in the hospital  
Peace don't seem possible, when the mine is so close  
Came in for your money, then left with all of your hoes

Someone like  
Someone like  
Someone like  
Someone like  
Someone like  
Someone like  
Someone like  
Someone like  
Someone like you  
Someone like you  
Open up your mind  
Start to see what you know, oh

sitting here sad since you left me here alone

Someone like  
Someone like  
Someone like  
Someone like  
Someone like  
Someone like  
Someone like  
Someone like you  
Someone like you  
You were so good  
Girl you let me hurt so good

Love me, love me  
Then fittin' on ignore me  
Beautiful to get ugly  
Turn me into a junkey  
I still search for something, but I don't know what  
Dreaming about nothing, wake you up and then f\*ck  
I love it when you get a little nasty  
Hit it from the back, if you like that, we'll go them ass cheeks  
Isn't that sweet, same shit you did last week  
For all the cash, you stood up and would've walked passed me  
Wake me uÃ¡Â¹Â— from this bad dream  
Put a match to this gasoline  
Every night with somebody different  
Got me thinking it's Halloween  
F\*cked up, can't feel myself  
work hard might kill myself  
Exist through audio, where all my problems outwear themselves  
Trapped in this wishing well, death creeping like sprinter cell  
Gettin' high, put my mind away,  
Find the words to what I'm tryin' to say  
I'ma think of that later  
When the world goes against you, when you get that paper

Someone like  
Someone like  
Life so fast but my baby keepin' slow  
Someone like  
Someone like  
Someone like  
Someone like  
Someone like  
Someone like  
Someone like you  
Someone like you  
Open up your mind, start to see what you know, oh  
You look so good  
Do you love me so good  
Someone like  
Someone like  
Someone like  
Someone like  
Someone like  
Someone like  
Someone like

Someone like you  
Someone like you
