

Mac Miller "The Scoop On Heaven"

Visit "[The Scoop On Heaven](#)" on MotoLyrics.com

I heard they got nice cars up in heaven
Free liquor out the bar and the brightest fucking stars
up in heaven
Heard that you can chill, not worry about the police not
worry about someone fighting cuz everything is in
peace
Heard the streets paved with gold, and the women all
gorgeous
You just float, can't even feel where the floor is
I heard heaven got a brand new venue
Next to that restaurant, you love their menu
And everything free
So everyone cool
Look out any window, it's an incredible view
Everyone you speak to always tellin you the truth
And it's only good shit when you gettin' all your
news
I imagine that, just a place that we can kick it
And be happy at
Satisfaction or maybe I'm dreamin, I'll tell you
what it's like when I see
Did you hear what heaven's like?
Can you tell me. Please, I'm really trying to know.
Cuz I do what I do when it's all said and done
Shit I'm just tryin to go.
If you hear what heaven's like, could you tell me.
Please, I'm really tryin to know
Cuz I do what I do when it's all said and done
Shit I'm just trying to go
I heard ain't nobody famous up in heaven,
everybody the same
Just kick it up there in heaven cuz nobody going to
change
Nobody can complain
The parties are all insane
The people all know your name, shit you entertain
See everybody you want, always keep in touch and go
and chill by yourself when everything get too much
Never a f-ckin rush, so therefore a million plus
You prolly got a mercedes but always could take the
bus
So f-ck, thats what heaven's like

I guess think it is
Come to think of it I've been drinkin shit
I dunno (what) the truth is
It's what I imagine when I was standin on the booth
Did you hear what heaven's like?
Can you tell me. Please, I'm really trying to know
Cuz I do what I do when it's all said and done
Shit I'm just tryin to go
If you hear what heaven's like, could you tell me.
Please, I'm really tryin to know
Cuz I do what I do when its all said and done
Shit I'm just trying to go
