If we could know where we was going to go
We'd probably never see tomorrow
So if I keep on making love to these songs
I'ma be good for the rest of my life
Hey, some people just don't want it
Hey, whatever it is, whatever it is
But I think I got it
Hey, whatever it is, whatever it is

[Verse 1]

Whatever it is, they're getting it straight
I'm too obsessed, too dedicated, never escape
I ain't scared, I'ma go in, looking like I'm glowing
Running on beats, you show me your feet
If you ever be down to flowing
And now, I got a notion, I'ma put this into motion
Speeding through the present
Trying to get there and coach, damn
Hopes the smoke man will be there soon
For now the music up loud and the beat on smooth
I'm just rhyming, spitting so efficient
Keeping the tradition, while seeking to be different
Just dropped K.I.D.S., but I'm a man of many words
You had to do it big, but couldn't never stop the work
Now you heard my words and your bubble's gonna
burst
Yeah we're on third but say what's up to the homies on
first
If I can, I'ma kick it, rip it just 'cuz I love it
Now they see me, ask me if I can spit it right out in
public

[Verse 2]

Hey, yo, rappers got time that they're wasting, hating
When they could focus on their own grind, skating
They mad I got fans and they mad I got love
'Cuz me and music fit like a glove, so snug
All you angry mother f*ckers going for my club

When you come around me, it ain't nothing but love
I got girls giving hugs, people dapping me up
And you in the corner, like, "Oh man, Mac sucks!"
Been a long grind and a little bit of luck
Feeling blessed everyday for the way I'm coming up
I can promise you this: I ain't even close to done
Just pray to god that I'm safe when the soldiers come
They hear me, they forgetting if I'm old or young
Got this music on lock, but I open up
All the time, 'cuz my bars and my rhymes be my
lifestyle
Blowing white clouds, I'm getting high right now
