Baby, you, your smile remind me of sunshine, girl,  
Your smile just like roses,  
You say you don't need a man,  
Well, I just want your loving, darling.

I want it all, I can tell you  
The way you make me feel,  
You make me feel high.

Baby, we could change the world forever,  
We should turn it into something better,  
Then could you cry as this change before your eyes.

Me and you do what normal people do,  
You're so, so beautiful, your body just the vehicle.

Baby, you, you took me by surprise  
I swear I see the whole world in your eyes.  
Next time you're sad and alone,  
Please let my love take you home.  
Baby, you know what we'll do  
It's all in you, nobody, nobody but you.

Why, why must I lay here awake  
When I could be dreaming of your face?  
You wait up, go to sleep then I'll see you in a second,  
Baby, try, try to love me again  
And if not, just pretend,  
I'm scared you'll, you'll fall  
In love, love with somebody else  
Who can save you from yourself  
Because there's not life without you,  
There's something about you, I know  
Something's special, I'm sure.  
'cause a girl in love is so pure,  
And I want it all.

Baby, you, you took me by surprise  
I swear I see the whole world in your eyes.  
Next time you're sad and alone  
Please let my love take you home.

Baby, you know what we'll do  
It's all in you, nobody, nobody but you.

You, nobody but you.  
Baby, I'll not gonna leave you, I know.  
Said no one but you, nobody but you.
