Now you're the best of all the leading brands  
From loving kisses down to holding hands  
I am happy only in your company  
And no one else can make this guarantee

You're the best and always number one  
You've got the competition of the run  
I'm sure that everybody understands  
I like you best of all the leading brands

Your new improved performance sure is great  
To me there is no question how you rate  
Your quality puts you so far ahead  
Your shape your style your looks sure knocks 'em dead
