Dorthea had a bad place that was a disgrace  
A home for old people for a monthly rate  
With the help of her son  
The old folks' home she'd run  
And things seemed quite normal  
But something was wrong  
The people that graced old Dorthea's place  
Had no friends or family that she'd have to face  
So she thought of a scam  
Her son the right hand man  
A very demented and morbid plan  
The old folks' social security checks  
To Dorthea were sent  
She was allowed to cash  
Tenants' checks for their rent  
But the tenants were dead  
All poisoned to death  
So they wouldn't have to be  
Cared for or fed  
With the help of her son  
Buried one by one  
In Dorthea's yard  
'til someone caught on  
Dorthea did plead guilty for her deeds  
Dorthea's dead folks home  
Is now history
