

Macabre "Hillside Stranglers"

Angelo and Ken were cousins and friends
Two cousins who liked prostitutes
Cruising the night, a girl they'd invite
In their car for a ride to the hillside
Abduction, rape and strangulation
That's how Kenneth and Angelo
got their sexual gratification
Posed as the heat
snatched girls off the street
the girls they would take
to Angelo's place
tied up and raped
no girl would escape
strangled they died
left on the hillside
I'm gonna strangle you:
And leave you on the hillside
I'm gonna strangle you:
Spread naked on the hillside
We're gonna strangle you:
And leave you on the hillside
We're gonna strangle you:
Spread naked on the hillside
