Richard Ramirez)

He will get you in the night

Then he=B9ll take away your life

He=B9s coming to your house with Satan in his head

Looking for a way in, while you=B9re sleeping in your bed.

Night stalker - looking for

An unlocked window or door

Night stalker looking for

An unlocked window or door

Through the window he will come

With his small calibre gun

Creeping through your house when there isn=B9t any light

He=B9s gonna wake you up with a bang in the night.

Night stalker - will delight

In killing you in the night

Night stalker will delight

In killing you in the night

He will sneak up to your bed

Shoot your husband in the head

He=B9ll beat and rape you while your husband slowly dies

And make you swear to Satan that you won=B9t let out a cry.

Night stalker - will get you

Then he will murder you =

Night stalker will get you

Then he will murder you
