(Richard Speck)

Richard Speck stayed in Chicago.

He took some pills and drank some alcohol.

He tried to wreck nine nurses but one of them got away.

He's rotting now in jail, that's the way he's gonna pay.

Richard Speck lives, off our taxes he thrives.

He strangled and stabbed eight nurses that night.

Richard Speck lives, we pay for his meals.

Convicted for eight student nurses he killed.

What the heck Richard Speck, eight nurses you wrecked.

What the heck Richard Speck, eight nurses you wrecked.

He tied them up inside of a room.

And one by one he causes them much GLOOM.

He stabbed and strangled eight nurses but one of them got away.

Twelve hundred years in jail, that's the way he's gonna pay.

In jail Richard died, no longer alive.

And he lived off our taxes several years of his life.

Richard Speck lived, we payed for his meals.

Convicted for eight student nurses he killed.

What the heck Richard Speck, eight nurses you wrecked.

What the heck Richard Speck, eight nurses you wrecked.
