When the smoke had settled  
from the angry fires  
that burned away part of my life  
then I thought I was standing  
on the edge of time  
but through the haze  
I saw a light  
I don't know what it was  
I thought I'd find  
nothing left under the stars  
I swam across the sky  
and pushed the clouds aside  
to find you there with my heart

I've come a million miles to be with you  
I swam across the sky  
here I am  
Here...underneath the sun  
here...we're the only ones  
here  
and when I see your face  
it lights another day  
and all my broken pieces  
fall into place  
I've come a million miles to be with you  
I swam across the sky  
here I am
