"The Momur"

Visit "[The Momur](#)" on MotoLyrics.com

Late last night
I was speaking with my wife
when she turned into a momur
tried to put me uptight
I said "You don't scare me"
then she let out a scream
that's when my heart started jumpin'
like a broken t.v.
She was a momur and it was just like I told ya'
she said "You better watch out, I might bite a big hole
in ya"
The very next morning
I was watching cartoons
when I thought I saw a momur
it was you know who
well, she backed me in a corner

tried to kill me with a broom
and shouted personal remarks
from across the living room
She was a momur and it was just like I told ya'
she said "You better watch out, I might bite a big hole
in ya"
Late last night
I was speaking with my wife again
when she turned into a momur again
tried to put me uptight again
she took me favorite guitar
and she smashed it on the floor
when she danced around on top of it,
I thought I might get sore
She was momur
