Chris Whitley
"Aerial (Edit)"

Sheets of golden velvet rain
Lubricate my naked steel again
Let the day go by far below
Million miles of sky all I know

Aerial, aerial, get on

Aerial power glide
Preparing to see her, I got to rise
And now I'm touching myself
I'm painting my eyes

Let the day go by far below
Million miles of sky all I know

Aerial, aerial, get on
Aerial, aerial, get on

I got friends from other systems too
They all need the same thing you do

Let the day go by far below
Million miles of sky all that I know
Let the day go by all I know

Aerial, aerial, get on
Aerial, [Incomprehensible], get on
Aerial
