And now I lay awake  
My eyes aren't closed  
The fire snakes  
Superimposed on a barren world tonight  
Simple but supreme  
The dragon ROAR evil and mean  
I hear it soar not far above our world tonight  
Now the immortal beast  
Descends on me, prepares to feast  
My enemy is taunting me to fight  
Simple but supreme  
The dragon ROAR evil and mean  
I hear it soar not far above our world tonight  
Nocturnal light and thunder blasting from the sky  
The beast is hunting for a prey that cannot die  
But this is how it's always been si-since the dawn of  
time  
And this will always be the dragon fury rhyme  
Now! Whoa-o-oh  
Now! Whoa-o-oh  
An ancient beast that occupies the high above  
A raging monster to be fearful of  
Simple aggression purely spawned from mother earth  
A true impression of the might of her  
Now! Whoa-o-oh! Descend from above  
Now! Whoa-o-oh! Descend from above  
(Solo)  
(Not far above our world tonight)  
And now I lay awake  
My eyes aren't closed  
The fire snakes  
Superimposed on a barren world tonight  
Simple but supreme  
The dragon ROAR evil and mean  
I hear it soar not far above our world tonight  
Now! Whoa-o-oh  
Now! Whoa-o-oh! Descend from above
