I wanna start the third world war  
It's just what we've been waitin' for  
It'll free the hungry and the poor, yeah I...  
...wanna start the third world war

It will create new and exciting sports  
In a world of hate, a game show worth fightin' for  
You didn't care before, now there's a whole lot less  
more worth and for (?)  
And there's molded plastic figurines and general  
controlled and slittin' machines (?)

And I wanna start the third world war  
It's just what we've been waitin' for  
It'll free the hungry and the poor, yeah I...  
...wanna start the third world war
