I've been sittin' on my own, dreaming of your fingertips
So i've been using my own while I'm rehearsing my hips
I've got a bottle of beer and i'm a long way from home
And it seems really stupid to be partying alone
Look me in the eye & tell me it ain't wrong
Throw me on the bed & love me all night long
Throw me on the bed & love me all night
Got myself a treat sweet rock & roll
Throw me on the bed & love me all night long
Now i've got it bad, that ain't good
Unless you come & join me like you know you should
I've smoked a little dope & i'm feelin' pretty high
I ain't no imitator i'm just in disguise
Look me in the eye & tell me it ain't wrong
Slap me in the face if i'm bein' too strong
Or you can hold me down & kiss me, i'll play along
Throw me on the bed & love me all night
Throw me on the bed & love me all night long
Got myself a treat sweet rock & roll
Throw me on the bed & love me all night
Throw me on the bed & love me all night long
Throw me on the bed & love me all night
Got myself a treat sweet rock & roll
Throw me on the bed & love me all night
