One, two, three, four, go, go

Oh, I bite the hand  
'Cause this hand feeds off me  
Devoid of emotion it lives to cheat  
Ignorance is bliss and respect I gave you  
Friend you did claim this  
Too bad you can't speak the truth

Give respect  
'Cause the rule is blood for blood

Beatings are what you'll inherit this time  
Fist bait, your new name your pain is my shrine  
Pulverize and break determination  
Pleasure I negate  
Your pain brings me salvation

Give respect  
'Cause the rule is blood for blood

Oh, I was born of tension  
Anger came from frustration  
I can't back down from aggression  
Some hard knocks taught me this lesson, yeah

Give respect  
'Cause the rule is blood for blood

Give respect  
'Cause the rule is blood for blood, yeah oh
