When I come for you
When I see through you
When I eat through you
When I destroy you

I am your nightmares, true scares
Those dreams when you can't stop from fallin'
Can't fight, can't run
Can't stop the person, you've become

I am your heartbreaks, mistakes
That place inside, your hate
I am that shadow following every move
Reminding you

That it's never good enough, never good enough
Even though you'll try and try
I'm gonna call your bluff
Because I am the thing, bringin' the feelings when

Your world comes crashin' around you
Smashes down around you, yeah
When will you see that you cannot hide from me?

When you feel darkness, hopeless
Can't cope with all the stress
I'll make you hate life, bring strife
Remember failures, hardened stare

And it's never gonna change, never gonna change
Always they'll be judgin' you
Compared to who and who
You trust in me but I only live to see

Your world comes crashin' around you
Smashes down around you, yeah
When will you see that you cannot hide from me?

When I come for you
When I see through you
When I eat through you
When I destroy you

You'll think, you're betrayed, astray
I'll leave you ripped and torn so bad you
Can't trust, can't love
Can't understand why life's so fucked

I'm deep inside your mind
In constant remind
If you leave your thoughts to me, believe
I'll make sure that I see

Your world come crashin' around you
Smash down around you, yeah
When will you see that you cannot hide from me?

I'll make your, your world come crashin' around you
Smash down around you, yeah
I'll let you see why cannot hide from me
Because I am you
