

Machine Saviour "Streams"

Visit "[Streams](#)" on MotoLyrics.com

It's the light that surrounds you
The light that commands you to fight

Fight to find the answer
Fight to find the door
Through all eternal question
Through vision of no more,

Tear of pain
Fears insane
Tears of pain
Bring the reign

My power feed the streams
My power hold the dreams
My love I lay upon you
My eyes have seen the king

Free the fighting within you
The fighting may take you to hell
And hell is all around us
Th savior lies within
Within the soul the answer
The dawn of life begins

Touch the flame
