Me and Lucy we had a conversation
On the lawn
I can taste my time
We know you only want the one-way ticket half the time
But you won't be kind

Sullenly you catch the sun
In a singlet off the line
You're so canine
You say we'll all become
The wildlife caught up on the wire
But then you change your mind
But you're never ever gonna calm down

Like water to a ghost
You don't really need it the most
But you're never ever gonna calm down...

You shoot ideas you just like rolling water
And the dawn
You see it in alone
You hold your knees you're just like a
White bird singing in a mine
But you sure can hide
Missing you is just the one way
I don't want to die
But I can't tell you why
If you're never ever gonna calm down

Like water to a ghost
You don't really need it the most
But your never ever gonna calm down...
