When I feel like I'm about out of hell
I can feel my cage is shrinking
I can see the light from a prison cell
I can feel the world weeping
Understand me, understand me
Release -- acceleration
When I feel like I'm about out of hell
I can feel my cage is shrinking
I can see your light from the prison cell
I can feel the world weeping
Understand me, understand me
Release -- acceleration
White light inside of me
Acceleration all around
Till it don't feel like I'm moving at all
Till it don't feel like I'm moving at all
Got caught raping an angel
Got caught stealing fire out from the sky
Got caught raping an angel
Got caught, released, and I cried
Release -- acceleration
Into the arm the feelings are...
Into the arm the feelings are down
