I'm gonna give you one more chance  
Now if you want to apologize  
Here's your opportunity  
Body and soul  
Oh, we forgot to say forgive me  
Forgive me for I know not what I say  
Forgive me, forgive me  
My love I've gone astray  
All I really need is your love...

To fall in love  
If that's what you call love  
I still don't know what I've been thinking of  
All I really need is your love...  
(You already said that...)  
All I really need is your love, love, love, love
