moving at the speed of ray beams  
cause slowing down is bad luck  
make the wrong decision  
you'll be left out in the cold

destination, rhythm nation  
livin life in overdrive  
liberation, proclamation  
do you wanna join the ride?

no "if, and, buts, or maybe's"  
cause there is no tomorrow  
we fight for fame and fortune  
before we get to old

destination, rhythm nation  
livin life in overdrive  
liberation, proclamation  
do you wanna join the ride?

destination rhythm nation time is right now  
overdrive we vocalize our brand new lifestyle  
liberate no time to waste before we fade away  
cause tomorrow is too late to fight for a better day

destination, rhythm nation  
livin life in overdrive  
liberation, proclamation  
do you wanna join the ride?
