Time heals everything, Tuesday, Thursday  
Time heals everything, April, August  
If I'm patient the break will mend  
And one fine morning the hurt will end

So make the moments fly, autumn, winter  
I'll forget you by next year, some year  
Though it's hell that I'm going through  
Some Tuesday, Thursday, April, August  
Autumn, winter, next year, some year

Time heals everything  
Time heals everything  
But loving you

So make the moments fly, autumn, winter  
I'll forget you by next year, some year  
Though it's hell that I'm going through  
Some Tuesday, Thursday, April, August  
Autumn, winter, next year, some year

Time heals everything  
Time heals everything  
But loving you
