People are you ready lets start the show

Don't worry 'bout the present day, he can't stop us now

LB

Calling out t'all ? area crew

we gonna make this shit happen right here right now x4

I wanna welcome y'all to absolutely hell heating  
And it's truly chocka ? make it to my new meeting  
So take you time grab a table we got booth seating  
Now allow me introduce me to my new people  
You see my name is lyrics born baby and I truly mean  
that  
From the past from the future from the new and recent  
You don't believe you can read page one in you leaflet  
L-Y-R-C is funk philly born baby  
Top of the esch-e-lon of MCing  
And I think on the topic we all in agreement  
I'm never running from a challenge never been  
sheepish  
In the rap all the fame we gotta get me in  
You gotta see me do my thang son I'm too fiendish  
Flinging tune after tune till the wound deepens  
I have a rumour human thing, it's feeling wousy like a  
fiend  
Lead me move you to the music and the fever  
screaming baby

Calling out t'all ? area crew

we gonna make this shit happen right here right now x4

My life's a combination of my past achievements  
With a lotta heavy lifting, lotta deep breathing  
A lotta courage, lotta doubts a lotta mixed feelings  
A lotta love a lotta luggage for a lotta reasons  
I ain't forgot about the pain and all the mistreatments  
I ain't forgot the little box they try to wiggle me in  
I ain't forgot about the flower deep underneath the

crowded streets  
Sprouting inbetween the cracks see me shout baby  
Follow like a lock in, in the Colliseum  
And you can positive I think I'm in the mausoleum  
You think I'll ever hang it up hoh body stop dreaming  
You think I'll ever stop oh baby now you're reaching  
I won't stop till I feel my lungs stop breathing  
I won't stop till I feel my heart stop beating  
I won't stop speaking this week and next week  
And all folks, Steep singing, hot dogs ?  
Stop seeing, five freezing, ice heating ?  
Fire palms, reading all fat fall ?  
Freak clear from the mountain tops screaming Baby ?

Calling out t'all ? area crew  
we gonna make this shit happen right here right now x4
