

Macy Gray "Every Now And Then"

Visit "[Every Now And Then](#)" on MotoLyrics.com

It's the mood I'm in
It's how hard it's been
The ultimate sin
Don't want to commit

But I think of it
Yes, I think of it
Every now and then
Every now and then

Could give love a try
Could give god a try
If you [Incomprehensible]
To say bye, bye

And I think of it
Yes, I I think of it
Every now and then
Every now and then

When you're getting down
You got to get up
When you're getting down
You got to get up, up, up

Highest of the high
Two pies in the sky
It could be all mine
Just a matter of time

But I think of it
Yes, I I think of it
Every now and then
Every now and then

Guess I could forget
Could remember when
Could discover it
But how hard it's been

And I think of it
Yes, I I think of it

Every now and then
Every now and then

When you're getting down
You got to get up
When you're getting down
You got to get up, up, up

Highest of the high
Two pies in the sky
It could be all mine
Just a matter of time

But I think of it
Yes, I I think of it
Every now and then
Every now and then

The world is changing yeah
Every now and then
And the whole world spins
Every now and then

Every now and then
Every now and then
Every now and then
Every now and then

It's the mood I'm in
It's how hard it's been
And I think of it
Every now and then
Every now and then
