It's a sad, sad day
When the thing you love, my love
Brings you to your knees, my love
Beats you down and eat you up
'Til your nothing but gray

They say I'm too far left
At least I ain't someone else
'Cause I can't change it
And then exchange it
I'm just freeing myself

They say I'm too far gone
And I say that they're wrong
'Cause who are they to
Say who I should be
And where I'm going

Am I going to heaven?
Am I going to hell?
You see when
I wake up in the morning
I just can't tell
I can't help myself

And some say I'm bad
Some say I'm good
And some they think
I'm just a psycho broad
But I'm just misunderstood
Yeah, I'm misunderstood

So can somebody help me?
(Help me, help me, help me, help me)
So can somebody help me?
(Help me, help me, help me, help me)
Somebody help me
(Help me, help me, help me)

Help me, help me, help me, help me, now

If I change, change, change

If I switch off my delivery
Will my love remember me?
When I'm dead and gone
They say I'm dead and gone, they say

They say I'm too far left
At least I ain't someone else
'Cause I can't change it
And then exchange it
I'm just freeing myself

They say I'm too far gone
And I say that they're wrong
'Cause who are they to
Say who I should be
And where I'm going

Am I going to heaven?
Am I going to hell?
You see when
I wake up in the morning
I just can't tell
I can't help myself

And some say I'm bad
Some say I'm good
And some they say
I'm just a psycho broad
I'm just misunderstood
Yeah, I'm misunderstood

Yeah, so somebody help me
(Help me, help me, help me, help me)
Somebody help me
(Help me, help me, help me, help me)
Reach out your hand and help me
(Help me, help me, help me)

Don't let the rain on your shoulder now

I try to follow
But it don't fit me
I'm hard to swallow
'Cause they don't get me

And my soul is shifting
I call it unique
But I guess I don't know

So can somebody help me?
(Help me, help me, help me, help me)

Can somebody help me?
(Help me, help me, help me, help me)
Can somebody help me?
(Help me, help me, help me)

Help me, help me, help me, help me, now

Can somebody help me?
(Help me, help me, help me, help me)
Can somebody help me?
(Help me, help me, help me, help me)
Can somebody help me?
(Help me, help me, help me)

One, two, three, four

Somebody help me, somebody help me
Somebody help me, somebody help me
Somebody help me, somebody help me
Somebody help me, somebody help me

Somebody help me, somebody help me
Somebody help me, somebody help me
Somebody help me, somebody help me
Somebody help me, somebody help me
