She may be pretty, got more money than me  
But she don't write songs about you  
She's always cooking and studying books and  
But she don't write songs about you

There's a place that's good for me  
Got money skies and fruity trees  
And trust me love is on the way  
Baby baby, satisfaction fills the air  
And holds me close like teddy bears  
And it's a sunshiny day

Even when it's cold and dark outside  
Inside the sexy people screaming that  
They love me 'cause I'm Macy Gray  
Crazy crazy, when the party never ends  
And all the angels are my friends  
They see me they say, "Hey hey"

She may be pretty, got more money than me  
But she don't write songs about you  
She's always cooking and studying books and  
But she don't write songs about you

In this place the things I cherish  
Last forever and whoever enters  
Has a song to sing, they go  
La la la  
La la la  
La la la

Even when it's cold and dark outside  
Inside the sexy people screaming that  
They love me 'cause I'm Macy Gray  
Crazy crazy, when the party never ends  
And all the angels are my friends  
They see me they say, "Hey hey"

She may be pretty got more money than me  
But she don't write songs about you  
She may be smarter, her bosoms are larger  
But she don't write songs about you

She'll give you good head and she'll make up your bed  
But she don't write songs about you  
You think she's for you but she'll only bore you  
But she don't write songs about you

'My Cherie Amour', 'Looking at the Front Door'  
'Sweet Thang', 'Baby Hit Me One More Time'  
'Betcha Think This Song Is About You'  
Couldn't-a wrote it without you, it goes, la la la  
It goes, la la la

Crazy crazy  
JMJ in the house  
JMJ in the house

She may be pretty got more money than me  
But she don't write songs about you  
It's all about you baby, this songs about you baby  
She don't write songs about you

She'll do your dishes and feed all your fishes  
But she don't write songs about you  
You'll think she's for you but she'll only bore you  
She don't write songs about you

She'll give you good head and she'll make up the bed  
But she don't write songs about you  
She'll do your dishes and feed all your fishes  
She don't write songs about you  
She don't write about you

They go, la la la
