Alert

Remember

Burn the flag, the flag, the flag

Hypnotized

Control spiritual riots

Get the hag, the flag, the flag

Sacrilege

Obey your mental leader

Kill your idols now

Find another way to hang on without

And you take another breath

And then you blow it all out

Get the banner down

ALERT, ALERT, ALERT, ALERT

Break the chains, the chains, the chains

Obsequies

You fight the regime's terror

You fight the fiame, the flame, the flame

Ritualised

You'll never get the badge off

Kill your idols now

ALERT, ALERT, ALERT, ALEF.T

You move like a machine

You're to dwell

You man without a mission

Hear the lie, the lie, the lie

Of the bomb

You lead it by a whistle

Kill your idols now...
