You better run, you better hide  
Four forces collide  
Somehow our atoms survive  
Sever all ties  
From a universe of mankind  
Spot satellites, secret agent men

The power of the force, no one can contend  
Infiltration, reincarnation of the same old situation  
Evil temptation, never lose your births creation  
Brainwashes, anonymous education

Better run for shelter  
Everything is helter skelter  
Better run for shelter  
Better run for shelter baby

I see the thunderstorms up ahead  
Don't know it but were already dead  
What was meant to be heard never was said  
Since the beginning of time been misled

The cold war traumatic  
Below the belt tactics  
The methodolotical and the systematics  
Reduction of construction of weapons of mass  
destruction  
Only certain one function

Better run for shelter  
Everything is helter skelter  
Better run for shelter  
Better run for shelter baby

Better run for shelter / and those dreams  
Everything is helter skelter / i would keep  
Better run for shelter / i would keep them from being  
free  
Better run for shelter baby

Shelters

Past tense, now youve felt the heat  
The future brings, straight to the trenches  
Melt, you're starting lined up straight to the bitches  
Poke a face, smelt with the chronic up in my clitches  
Addicted, bullets are, bullets just barely missing you by  
inches  
Catching a box hold, clap and we lock load  
Grabbing the rock road, tracks and the spots blown  
And cringe and the opposition is bridging

Better run for shelter  
Everything is helter skelter  
Better run for shelter  
Better run for shelter baby

Better run for shelter / and those dreams  
Everything is helter skelter / i would keep  
Better run for shelter / i would keep them from being  
free  
Better run for shelter baby  
Everything is helter skelter  
Everything is helter skelter  
So you better run for shelter  
Everything is helter skelter  
Everything is helter skelter

Got my arms  
Something real that i can feel  
Got my arms  
Something real that i can feel

I see the thunderstorms up ahead  
Don't know it but were already dead  
What was meant to be heard never was said  
Since the beginning of time been misled

Times and times, eyes among the signs  
Universal truths defied, human rights denied  
Signs started black for mankind to live and serve on  
the front line  
Smile,satellite sexist,stand in stone, along and do we  
need a permit for the trigger of a gun  
Now all it takes is the push of a button  
Ten thousand miles away

Better run for shelter  
Everything is helter skelter  
Better run for shelter  
Better run for shelter baby

Better run for shelter / and those dreams

Everything is helter skelter / i would keep  
Better run for shelter / i would keep them from being  
free  
Better run for shelter baby  
Everything is helter skelter  
Everything is helter skelter  
So you better run for shelter  
Everything is helter skelter  
Everything is helter skelter  
Better run for shelter baby
