In the black of the night  
You find snake and his boys  
Sneakin' around  
Now don't get in this way  
'Cause everyone knows  
He'll bring a good man down  
When the city lights  
Turn into the night  
He makes his own law  
He's the worst bad boy  
They ever saw  
Killing heard for time  
Takin' a life for nickel or dime  
You can hear'em now  
A message clear and loud  
The snake is out  
And somewhere in his heart  
He'd like to turn around  
And make a brand new start  
He'll always be the same  
He doesn't know how to change  
And now they call him insane
